Terms of PNP hire bike care

Junior riders and parents are responsible for seeing that basic bike maintenance and safety checks are carried out before the bike is ridden on the track. Talk to coaching team about how to carry this out. As a general guide the following should be carried out :

- Check tyre pressure is about 90-100psi. The club owns bike pumps that may be used by the members. Also check tyres for cuts or foreign objects inbedded in them. To avoid missing out on a ride please have a spare tube with you.
- Check wheel nuts are tight before riding. They may have come loose or someone may have altered them since you last used the bike.
- Check the chain is not too tight or too loose. There should be some up and down movement in it. The chain should be kept clean. Use a chain cleaner and oil chain as necessary from the clubs equipment.
- Check the handle bars do not turn when you hold the front wheel straight.
- Check the seat is on tight.
- Check your helmet for damage and correct fit.

The hirer may change handlebars, stems, seat, pedals and gears to adjust the bike to their own specifications using either club items or their own. Please return unused club items to the correct place. Label all personal equipment, as appropriate.

The club also has donated cycle equipment (clothes/shoes/pedals etc) that may be used for no charge by Junior members. Talk to coaching team about using these.

The Bike Hire charge will take the hireage up to the end of the season in March 2021.

Bikes may be allocated to another rider in the New Year if the bike is not used for a period of 3 weeks (school holidays not included). Please advise us if you're planning on continuing if away for some time.

Damage to bikes caused by negligence may incur an extra charge to replace items.

Bikes damaged by normal wear and tear or situations outside the riders control are covered by the hireage fees. Please respect the use of equipment at all times.
